PROJECTS / HACKATHONS

20/20 – SheHacks Hackathon at Queens University

- **Made With:** Google API, JavaScript, HTML, CSS
- A google extension that notifies users to rest their eyes for 20 seconds after working for 20 minutes. The purpose of this extension is to prevent eye strain. Learned about APIs, self-taught JavaScript within 6-hours, and effectively collaborated with my teammates.

Blackjack Simulator – Personal Project

- **Made With:** Python
- A text-based Blackjack/Card 21 Game. Achieved a higher understanding on objects and classes.

Personal Website – Personal Project

- **Made With:** HTML, CSS
- A personal website made from scratch by self-teaching HTML and CSS, showcasing my hobbies and interests.

WORK EXPERIENCE:

Croupier - Canadian National Exhibition, Toronto ON Canada

July 2018 – September 2019

- Achieved quick creative thinking skills to efficiently conduct the games in a fast-paced manner.
- Paid winnings/collected losing bets as established by rules and procedures of the game.
- Conducted roulette and followed all applicable rules and regulations.
- Prepared collection reports for submission to supervisors.
- As an Inspector:
 - Trained new dealers.
 - Mediated conflicts and settled disputes between players and dealers.
 - Supervised tables making sure all payouts are made accurate between players and dealers.
